**\$200 each
quarter**

\$10,000

**In principal for a
fund that will last
forever to benefit
our community...**

WHAT IS A 4-3-2-1 CLUB?

This is a fun and easy way to start an endowed fund to benefit your community forever!

- What you need to do is find three other friends (4 people total) and commit to starting a 4321 club to benefit your favorite charity or field of interest.
- Each person is responsible for an initial investment of \$100 with TCCF
- after that first investment each person gives \$200 per quarter to TCCF for 3 years.
- Once your three years are up, your club has permanently endowed fund of **\$10,000** with the TCCF of which the **interest** each year can be granted out to the charity of choice! For instance, at a net 5% interest, you would have **\$500 per year forever that can go to your chosen charity or field of interest!**

It should be noted that a fund at TCCF is officially endowed when it reaches **\$2,500.00**, which would happen in the first year of the 4321 Clubs! That means the interest generated can start being disbursed in the form of grants after the first year!

You can have as much fun as you want with your club, have a get-together each quarter, celebrate your success in helping the community, deciding on who the grants go towards, or spending time together volunteering on a project for your charity! You can be as actively involved as you would like!

Name your club, attend club coffees, host parties, issue challenges to other 4321 clubs, the possibilities are endless!

DO YOU NEED MORE FLEXIBILITY??

Do you need more friends to reach your quarterly total? Do you need longer than 3 years to reach \$10,000?

NO PROBLEM! Go at your own pace with as many friends as you wish, as long as your fund reaches at least \$2,500 within 3 years.

Relax and have fun giving back to our community!
